

Journal Publication

The official abstracts of the IUMS 2024 will be published by Frontiers supported by the Frontiers portfolio of Microbiology journals (<https://www.frontiersin.org/journals/microbiology>). Frontiers is committed to advancing developments in microorganism interactions by allowing unrestricted access to articles and communicating scientific knowledge to researchers and the public alike, to enable the scientific breakthroughs of the future.

Frontiers is fully open access, and all abstract books can be found here post publication. One must simply create/log into ones Loop account to view and download the book: https://www.frontiersin.org/books/all_books

The publication will be made available online following the Congress.

Only abstracts of registered presenters will be included in the publication.
